

HEMANTH H

SUMMARY

MERN stack developer with **3+ years of experience** building **scalable web applications** using **React.js, Redux, Node.js, Express.js, and MongoDB**. Proficient in developing **RESTful APIs**, **implementing authentication (OAuth, JWT)**, and **optimizing performance**. Passionate about **UI/UX improvements** and **efficient state management**. Experienced in **mentoring junior developers**, **working in Agile environments**, and **integrating third-party APIs** for seamless data processing.

PROFESSIONAL EXPERIENCE

Software Developer

Devship Private Limited | Chennai, India | September 2023 - Current

- Designed and developed **scalable full-stack web applications** using **React.js, Redux, Node.js, Express.js, and MongoDB**.
- Built and implemented **RESTful APIs**, ensuring **efficient front-end integration**, and **seamless data flow**.
- Optimized **MongoDB queries and indexing strategies**, improving **database efficiency by 30%**.
- Integrated **OAuth and JWT authentication**, ensuring **secure user access, authorization, and data protection**.
- Conducted **code reviews, debugging, and troubleshooting**, improving **application stability, performance, and maintainability**.
- Collaborated with **cross-functional teams** in **Agile environments**, enhancing **code quality and deployment efficiency**.

Software Developer

Regami Solutions Private Limited | Chennai, India | June 2022 - January 2023

- Engineered **responsive and scalable web applications** using **React.js, Material UI, and Node.js**, enhancing user experience across multiple projects.
- Developed **custom front-end components and reusable UI libraries**, streamlining development processes, and reducing redundant code.
- Designed and integrated **third-party APIs**, enabling **real-time data synchronization**, enhanced interactivity, and seamless system connectivity.
- Implemented **performance optimizations**, reducing page load time by **25%** through **code-splitting, lazy loading, and minimized API calls**.
- Worked closely with **clients and product managers** to translate business requirements into **technical solutions**, resulting in a **20% improvement in feature delivery speed**.

Senior Front End Developer

ArtifIntel Private Limited | Chennai, India | October 2021 - June 2022

- Spearheaded front-end architecture improvements in **React.js and Bootstrap**, enhancing performance and scalability.
- Designed and implemented **efficient state management solutions** using **Redux and Context API**, reducing unnecessary re-renders, and boosting UI responsiveness.
- Led UI/UX refinements by optimizing **component structures and CSS frameworks**,

- <https://github.com/Hemanth-26>

SKILLS

Frontend Development

- HTML, CSS, SCSS, Bootstrap, and Material UI
- JavaScript (ES6+), jQuery
- React.js, Redux
- Performance Optimization, State Management

Backend and API Development

- Node.js, Express.js, and RESTful APIs
- Authentication and Security (OAuth, JWT, Auth)

Database

- MongoDB, Mongoose

Version control

- Git, GitHub, and GitLab

EDUCATION

Master of Science

Computer Application
University of Madras, Chennai
2023

Bachelor of Science

Computer Application
Jaya College of Arts and Science, Chennai
2020

CERTIFICATIONS

Programming Fundamentals: C, C++, and Java

- Apollo Computer Education Ltd

resulting in a **15% improvement in page rendering speed**.

- Collaborated with designers and back-end engineers to develop **mobile-responsive applications**, increasing accessibility across devices.
- Mentored junior developers in **React best practices, debugging techniques, and performance optimization**, strengthening overall team expertise.

PERSONAL PROJECTS

Dashboard Website

Link: <https://hemanth-26.github.io/Dashboard-Application-FD/>

- **Designed and developed a real-time, full-stack dashboard application** from scratch using **MERN stack (MongoDB, Express.js, React.js, Node.js)**, delivering a seamless user experience.
- **Implemented secure authentication** with **JWT and OAuth**, allowing users to register, log in, and manage profile pictures with **cloud storage support**.
- **Optimized backend performance** by using **asynchronous operations and caching**, ensuring **fast API response times** and reducing user wait times.
- **Integrated RESTful APIs** to fetch and process real-time data efficiently, enhancing interactivity and responsiveness.
- **Deployed the backend on Render Cloud**, enabling **automated monitoring, scalability, and smooth deployment**.

Portfolio Website

Link: <https://hemanth-26.github.io/My-Portfolio/>

- **Developed an interactive, animated portfolio** using **React.js, Bootstrap, SCSS, and CSS**, enhancing the **visual experience with a modern UI**.
- **Integrated third-party animation libraries** to create a **dynamic, engaging user interface**.
- **Implemented a fully responsive design**, ensuring **optimal performance across all devices** with a **mobile-first approach**.
- **Optimized asset management and lazy loading**, improving page load speed and performance.

AWARDS & ACHIEVEMENTS

- **Trained and mentored junior developers** in **React.js, Redux, and front-end performance optimization**, enhancing team productivity and reducing onboarding time by **30%**.
- **Collaborated with cross-functional teams** in **Agile environments** to develop **scalable, high-performance web applications**, improving project delivery efficiency.
- **Facilitated stakeholder communication**, translating technical concepts into business insights, ensuring **alignment with project goals and faster decision-making**.
- **Achieved "Employee of the Month" recognition multiple times** for delivering **high-impact solutions, meeting aggressive deadlines, and improving code quality**.
